Re: Motion Responses

---

**Compressor at McAuliffe Elementary [by Eileen DelRossi]: Request Superintendent to specifically provide a status report on the progress of the ordering status of the compressor at the McAuliffe School**

One of the two AC compressors have been replaced via the City of Lowell by hiring an outside firm to do the installation; however, some diagnostic work still needs to be completed before it is fully operational. We expect this to be completed very soon. The second AC compressor has been diagnosed as unrepairable. The City of Lowell is putting together a plan for the funding, purchase, and installation. No timeline is available at this point.
